

General Specifications of SA ID

Location: Approximately 12 inches from the tip of the fly line

Color: Black text for all colored lines and white for all black lines

Not to Scale

NOTES:

- 1.) For Sharkskin Shooting Line, ### denotes line diameter
- 2.) For Sharkskin Streamer Express, ### denotes grain weight
- 3.) For all Sharkskin Floating and Sinking lines, X denotes line weight
- 4.) Colors of the lines on this page are to be used as a reference and are not the true colors of the lines themselves
